

Become a QP Preferred Manufacturer

QP Project Engineering and Procurement Services Directorate persistently seek new sources of materials, equipment, system and packages for its capital projects

We pride ourselves on the knowledge, skill, experience, and customer commitment our manufacturers and contractors bring to every project. We seek professional organizations that can meet these parameters and grow their competence jointly with us on increasingly challenging projects. We strive to give fair and equal treatment to all, ensuring a level field of competition and adhering to the highest ethical standards in the industry.

To meet our needs as described above, we look for manufacturers who have an interest to provide the products listed in this booklet.

If your product falls within this list, you may register with us as per the instructions available on QP website. In addition, the registration criteria has been revised and now allows only limited number of manufacturers to register against each product. If the product reached its maximum capacity, it will be greyed out in this list.
